CLASS OF SERVICE: Incremental Expansion Surcharge Adjustment

The following Incremental Expansion Surcharge Adjustments shall be added to the monthly customer charge for each applicable rate schedule(s) in those communities designated below.

<u>Area and Customer Class (SD-1)</u>	<u>Per Meter</u> <u>Per Month</u>	<u>Effective</u> <u>Date</u>	<u>Expiration</u> <u>Date</u>
Anytown, South Dakota			

The net present value of the surcharge will be treated as contribution-in-aid-of-construction for accounting purposes.

This surcharge will remain in effect until the costs incurred by the Company to finance and construct the gas facilities associated with this surcharge are completely recovered. Annual reconciliations will determine when all associated costs have been recovered and the surcharge will be dropped.

SOUTH DAKOTA GAS SALES TARIFF
SD P.U.C. Section No. III
Second Revised Sheet No. 5
Cancels First Revised Sheet No. 5

CLASS OF SERVICE: Cost of Purchased Gas Adjustment

1. Application

Applicable in all service areas in South Dakota and to all sales customers of the Company.

2. Implementation of Purchased Gas Adjustment

In the event the delivered costs for natural gas purchased for resale on a firm and/or interruptible basis increase or decrease, and result in a billing rate change that exceeds \$.003 per therm either temporarily or permanently, the retail gas rates in effect may be increased or shall be decreased correspondingly to reflect the change in the delivered cost of purchased gas. A gas cost change that does not total \$.003 per therm will be withheld until a change in the delivered cost of purchased gas exceeds \$.003 per therm from the current billing rate level.

3. Annual Gas Cost Reconciliation

Annually, on or before October 1st, the Company shall file a "Gas Cost Reconciliation" (GCR) with the Commission. The filing will compare the cost of gas purchased (including propane) with actual billed revenue arising from the components of retail sales which are attributable to the cost of gas purchased. Each such comparison shall be for the year ended the immediately preceding August 31st. The filing will specify a reconciliation rate adjustment to become effective on November 1. This GCR adjustment will correct for any difference between gas cost incurred and gas cost recovered for the reconciliation year ended August 31st and will correct for the previous year's reconciliation adjustment. The reconciliation adjustment will include carrying charges at the overall rate of return allowed by the South Dakota Public Utilities Commission in the most recent rate case for the Company.

4. PGA Over / (Under) Recovery Factor

A factor may be calculated monthly and applied to each Purchased Gas Adjustment Clause to obtain a reasonable balance between gas recoveries and gas costs ending with the final month in the gas reconciliation period. If the Purchased Gas Adjustment balance represents costs in excess of revenues, a factor shall be assigned a positive value. If the Purchased Gas Adjustment balance represents revenues in excess of costs, a factor shall be assigned a negative value.

5. Summary of Purchased Gas Adjustments

The billing rates set forth on Page 3 of Section III include all Purchased Gas Adjustments to date, and will be revised to reflect any increase or decrease described in the above two paragraphs.

6. Refund Procedure

Any refund of \$500,000 or less plus applicable interest thereon, if any, received by the Company from its supplier in respect of increased rates paid by the Company subject to refund and applicable to natural gas purchased for resale shall be passed on to presently served customers by an appropriate adjustment to the Gas Cost Reconciliation, or by a refund plan proposed by the Company and approved by the Commission. Any refund greater than \$500,000 plus applicable interest thereon, if any, received by the Company from its supplier in respect of increased rates paid by the Company, shall be subject to refund. This refund shall be applicable to natural gas purchased for resale and refunded to customers according to a refund plan proposed by the Company and approved by the Commission.

CLASS OF SERVICE: Tax Adjustment Clause

1. Application

Applicable in all service areas in South Dakota.

2. Tax Provisions

When any franchise, occupation, production, severance, transportation, pipeline, footage, sales, receipts, license, excise, privilege or similar tax or fee of any kind is imposed upon the Company by any governmental authority based upon (i) the sale of gas service to customers, (ii) the amount of gas energy sold to customers, (iii) the gross receipts, net receipts or revenues to the Company therefrom, such tax or fee or value of service shall, insofar as practical, be charged on a pro rata basis to all customers receiving gas service from the Company within the boundaries of such taxing authority. Taxes will be prorated on the same basis as they are charged to the Company. Any such charge shall continue in effect only for the duration of such tax, assessment or service period.

CLASS OF SERVICE: Btu Adjustment Clause

1. Application

Applicable in all service areas in South Dakota.

2. Btu Adjustment

The quantity of gas delivered hereunder shall be expressed in therms. The term "therm" as used in this rider means that quantity of gas which contains one hundred thousand British thermal units (100,000 Btu).

The number of therms delivered hereunder in any month shall be determined by multiplying the volume of gas in cubic feet by the average total heating value of the gas, expressed in Btu per cubic foot, as applicable for such month, and dividing this product by 100,000.

3. Gas Cost Component

Gas Cost Component – (C + E)

C – Commodity The gas cost component price is based on the daily gas commodity index prices, as described below, plus applicable interstate pipeline charges and fuel (retention) resulting in a delivered price. The daily delivered price will be multiplied by the daily metered usage. All usage from the daily metered readings within each billing period will be priced according to this method and billed to the customer monthly.

The source for the daily gas commodity costs is the Gas Daily index (publication). The Company will establish the pricing index points and transportation used at the start of the gas month. The Company may change these index point(s) at its discretion via a notice on the Company's electronic bulletin board. In the event market conditions result in MidAmerican incurring additional costs to secure supply for the Customer, MidAmerican reserves the right to pass these additional costs on to the Customer.

If any applicable index price is not published in Gas Daily for the applicable "Flow Date(s)," then the applicable index price will be used for the most recently published "Flow Date(s)" preceding the "Flow Date(s)" on which the applicable index price was not published.

E – Reconciliation factor is applicable for the billing period of March 1, 2006 through August 31, 2006, to either refund or collect the over/(under) reconciliation balances from September 1, 2005 through February 28, 2006. On and after September 1, 2006, the reconciliation factor will not be applicable.

Over or under cost recoveries incurred as a result of applying daily delivered prices described above to interruptible volumes will be credited or charged to the system gas price through the Cost of Purchased Gas Adjustment Clause 1, (Sheet No. 3).

4. Clauses
